WORKING WITH ME

- Happiest when building novel solutions to hard problems.
- I will bring value beyond the strict job description, by connecting project's deep *why*.
- Will bring the best out of conversations.

TOOLS AND SKILLS

- Strong in Solidity, Typescript, Python.
- Expert in C++, Elm/Lamdera.
- Eloquent and engaging writer
- Proficient with Linux and basic server administration
- Comfortable with basic UX design

CAREER PATH

- Studied Mechanical Engineering at University of Alaska, Fairbanks; completed 4 years of a 5-year degree.
- Stopped pursuing engineering after discovering Bitcoin in 2013.
- Spent four years studying and experimenting with crypto, entering the field professionally in 2017.
- Now seeking a more general web2 full-stack focus.

PROFILE

- Digital architect, highly skilled in translating bold vision into stable, highly-aligned implementations.
 - [See my portfolio](#)
- Strong generalist happy to pick up any tools necessary for the task at hand.
- Looking to commit long-term to a rockstar team and challenging, meaningful work.

DEVELOPMENT EXPERIENCE

Senior Solidity Developer

Vaporware (<https://vaporware.network/>)

Aug 2023 - Jan 2024

- Architected and implemented smart contracts that used NFT primitives as open software license analogs.
- Hardened smart contracts with regard to security confidence, via tests, audits, and other methods.

Senior Developer

Sumero (short-term contract)

May 2022 - Oct 2022

See my portfolio

- Took over maintenance and upgrades of complex oracle smart contracts from the external organization Uma.
- Wrote documentation and instructions for the above contracts for in-house use.
- Added features to Sumero front-end (Typescript + Vue), related to creating and managing new synthetic assets via the above-mentioned contracts.

CEO / Tech Lead

FoundryDAO

Jan 2019 - Jan 2022

- 2019/2020: Tech lead, focused on SmokeSignal and DAIHard (see [portfolio](#)). This involved primarily Solidity and Elm, and some server administration.
- 2021: Transitioned to CEO role, focusing more on hiring talent, finding product-market fit, scaling, and seeking funding.
